Board of Revenue, Madras

Ref: 3331/50-A5. Dt/ 23-2-50.

Sir,

Sub: Assignment - Land - Kollegal Taluk - Grant of lands - under Sivojjana occupation - sanction of Special staff - for regualarisation of the occupations - requested.

Ref: Ref: B.3839/49 d/ 5-2-50 of the Revenue Divisional Officer, Kollegal.

.....

There are about 15851 acres held under Sivojjana occupation by 6674 persons in Kollegal Taluk which are spread over 65 villages. Of these 4819 acres, held by 1664 persons, have been in occupation for over 10 years and the rest also over long periods but for less than 10 years. In 26 villages the occupation is in compact blocks on a total extent of 12754 acres held by 5098 persons while in the remaining cases, the occupations are in non-compact blocks.

2. The occupants in the compact and non-compact blocks are poor agriculturists who have permanently settled down on the land. The displaced persons from Mettur Dam have settled down throughout Martalli village while other Tamilian labourers, mostly harijans, have settled down in Chengadarhalli village. The occupiers, by dint of their hard labour, have completely converted what was originally a shrub jungle into garden land of millets. It is essential that these occupations are regularised according to the instructions in G.O. 1523 dated 11-6-49 so as to give a greater sense of security to the ryots and to enable them to attend to their cultivation with greater Zeal and enthusiasm as the ryots will then feel secure enough to dig wells and attend to the manuring and improvement of the land. This will help in the production of more food. During my tours in the Kollegal taluk I have personally satisfied myself about the urgent necessity to regularise the occupations.

3. It is now represented that the following factors can be decided only after detailed inspection and investigation by a responsible officer like a Deputy Tahsildar in view of the voluminous nature of the work.

a) to find out and decide whether the occupations are in a compact block or not;
b) to decide the nature, extent and genuineness of the occupation
c) to value the trees, wells etc. on the encroached lands;
d) to decide the actual extent of land that can be assigned to the occupier according to G.O. 1523 dated 11-6-49.

(A) 4. According to instructions in para 7 of G.O. 1523 dated 11-6-49, assignment of land from compact blocks can be made only to Co-operative Societies, unless a departure from the principle is permitted by Government. The bulk of the occupatic are reported to be in compact blocks and the position in each village will have to be investigated in detail before final actic for assignment is taken or even before Government can be addresse for exemption in suitable cases.

5. Taking Kollegal taluk as a whole, it is mostly backward and hilly. Out of 87 villages in the Taluk 7& villages have been classified as special tract. Hence there is no scheme on hand either to colonise the

PTO:

on hand either to colonise the ex-servicemen of displaced persons in this area. The landless poor persons alone have mostly occupied these areas and have improved the lands.

6. Thus the several aspects of the problem can be tackled only when it is taken up in right earnest and attended to systematically. If the regular staff is to attend to this item of work, it will take some years to do something appreciable and no uniform and systematic procedure can be adopted. Hence in view of the large volume of work and the necessity to get it done quickly and systematically in the entire taluk in order to give an impetus to the agricultural enterprise of the poor ryots and thereby develop the backward areas of Kollegal, a special staff consisting of a Deputy Tahsildar with one clerk and one peon and one Revenue Inspector with one peon may be sanctioned for a period of three months in the first instance.

7. I request early orders.

For Collector.
